Design Practice Name: Neoklasika
Design Practice Location: Riga, Latvia
Project Title: nouveau ART nouveau
www.neoklasika.com

Neoklasika has created a uniquely tailored home that celebrates and re-imagines the aesthetics of Art Nouveau in a new perspective. Situated in the historical centre of Riga, the 195-square-metre apartment merges the boundaries between design and art. The interior creates a dynamic ambiance filled with references to the shapes and colours of nature. The materials, craftsmanship and the techniques of Neoklasika's team of artists combine to create a one-of-a-kind interior designed to inspire. The visualisations illustrate the nuanced relationship between exquisite materials, wall murals and lighting scenography. The vast range of bespoke furniture and custom-made interior elements were 3D modelled at Neoklasika for this project. The visualisations showcase the dynamic design and present the interior concept in life-like images.
